

I am writing on behalf of K-LOVE radio as heard on 89.9 in my listening area. The station provides me peace and joy on my drive to work, as well as laughter and information throughout the day. I have been a loyal listener of K-Love radio for many years, first hearing it in Dallas, Tex. No one yells at me, is rude or hammers at me while I listen. It is a place on the dial I can go to hear calming music, fairness in news issues and cheerful, caring DJs. This would not be available to me without K-LOVE. The expansion of LPFM services is a very real threat to K-LOVE and would be extremely detrimental to the emotional welfare of my community should K-LOVE be forced off the air.
